

## 1000°F / 537°C: Very High Temperature & Heat Resistant Fiberglass Knitted Rope, Industrial Grade: *Soft Rope*

This knitted rope is fabricated from high quality type E fiberglass that will not burn and will withstand continuous exposure to temperatures of 1000°F / 537°C.

This material resists most acids and alkalis and is unaffected by most bleaches and solvents. It is highly flexible and conformable.

Commonly used for making gaskets on a variety of industrial and commercial boilers, ovens, furnaces. Used as a high temperature packing for shaft seals. Also used for residential wood and pellet stoves.

Other applications include a general purpose rope for industrial use, to suspend or hang objects or tie-off in high temperature environments in steel mills, aluminum and metals processing plants, etc.

Meets US Coast Guard specification 164.009 for incombustible material.

1000°F / 537°C continuous rating, high insulation value & excellent personnel protection
