

Very High Temperature Heat Resistant Fiberglass Twisted Rope: Premium Grade

This high temperature and heat resistant knitted rope is fabricated from high quality type E fiberglass that will not burn and will withstand continuous exposure to temperatures of 1000°F / 537°C.

This material resists most acids and alkalis and is unaffected by most bleaches and solvents. It is highly flexible and conformable.

1000°F / 537°C continuous rating, high insulation value & excellent personnel protection

Very High Temperature Heat Resistant Fiberglass Twisted Rope Premium Grade
