

## Very High Temperature Fiberglass Braided Square Rope Premium Grade (Square Dry Packing Rope)

This knitted rope is fabricated from high quality type E fiberglass that will not burn and will withstand continuous exposure to temperatures of 1000°F / 537°C.

This material resists most acids and alkalis and is unaffected by most bleaches and solvents. It is highly flexible and conformable.

Braided square rope is often used as a square dry packing.

1000°F / 537°C continuous rating, high insulation value & excellent personnel protection
