

Very High Temperature Braided Vermiculite Coated Fiberglass Sleeve: Premium Grade

Braided fiberglass sleeve with specialty coating of Vermiculite.

- Available in thin wall (1/16" / 1.6mm) and thick wall (1/8" / 3.18mm).
- 1500°F / 815°C constant with excursion to 2000°F / 1093°C.

1500°F / 815°C continuous rating, high insulation value & excellent personnel protection

The Vermiculite coating adds abrasion resistance and higher temperature capabilities which makes this sleeve a good insulator for hose, cable and copper or aluminum tubing.
