

High Temperature Heat & Chemical Resistance Knitted Fiberglass Rope with PTFE (Teflon) Coating Soft Rope

- PTFE (Teflon®) Impregnation

This rope offers the advantage of a non-asbestos material with higher temperature range and with excellent resistance to almost all solvents, caustics and acids.

The base fabric is rated to 1000°F / 537°C.

PTFE melting point is 620°F / 327°C.

550°F / 287°C continuous rating, high insulation value & excellent personnel protection
