

TuffWrap™ Hard Shell Hose and Cable Protection Spiral Wrap

TuffWrap™ abrasion protection wrap is manufactured from highly impact resistant nylon, and is simply wrapped over hose or cable to provide a tough protection shell to reduce abrasion damage. This shell is much tougher than our fabric abrasion protection sleeve and is ideal for harsh environments such as mining, outdoor construction or where hoses and cables might be dragged over concrete plant floors.

Available in sizes to wrap individual or bundled hoses and cables with a total ID up to 6 inches or 152mm.

TuffWrap™ spiral wrap helps to organize and bundle hoses and cables, while proving heat resistance to a maximum of 190°F continuous duty, and provides excellent abrasion, scuff and wear resistance.
