

## High Temperature Universal (Tacky Cloth) Handhole Gaskets – Oval With or Without Wire Insert - Plain, Graphite or PTFE Coating

These gaskets are made from TFF universal fabric and is especially suited where a rough or uneven surface or flange exists. The fabric is a fiberglass base with a special white rubber formulation. The fabric is tacky, and has a plastic film surface covering that is removed before installation. The fabric will stick to itself once the film is removed.

**Wire Inserted Version:** The fill (widthwise) yarn for this version of the fabric has a twisted brass wired formed with it, providing additional strength and electrical conductivity/shielding.

550°F / 287°C continuous rating, excellent sealing properties as a gasket material

High Temperature Universal (Tacky Cloth) Handhole Oval Gaskets 2" x 3" to 6" x 8"							
Part Number	Size in	"X" value in Part Number, Specify: A / B / C / D / E / F Flange Width in / mm Gasket Thickness in / mm

For the "X" value, use "A", "B", "C", "D", "E" or "F" to specify flange width and gasket thickness  
For the "Z" value, use "W" to specify with wire insert and "N" to specify no wire

With or Without Wire Insert – Same Price

**Add:** "-GC" to part number to add graphite coating. Adds \$3.00 per gasket  
"-PTFE" to part number to add PTFE dipped. Adds \$2.00 per gasket
