

Clamps – Preformed Twice-Around Stainless Steel

Preformed Stainless Steel Twice-Around clamps are the strongest clamps available. The Firesleeve Clamp Tool is recommended for closing and locking these clamps. Clamp width is .25". Made of 304 Stainless Steel.

Available in 3 sizes:

- SSFC-1 is useable for sleeve up to 7/8" ID. \$3.16
- SSFC-2 is useable for sleeve up to 1 1/2" ID. \$3.40
- SSFC-3 is useable for sleeve up to 2" ID. \$3.82

Clamps – Free End Stainless Steel Self Locking

These stainless steel clamps are self locking and can be closed with common hand tools such as standard or needle nose pliers. A tighter clamping can be achieved with the Firesleeve Clamp Tools. Available in two widths: .181" (tensile 96 lbs) and .311" (tensile 242 lbs). Four lengths are available in each width. (The Firesleeve Clamp Tool requires 3.25" of clamp free end).

Available Sizes:

- SSFCSL-WM005-XX. 6" long: \$1.21. 8" long: \$1.39. 14" long: \$1.59. 20" long \$2.11
- SSFCSL-WM008-XX. 8" long: \$1.59. 14" long: \$2.29. 20" long \$3.87

Firesleeve Clamp Tools

Firesleeve Clamp Tools aids in tightening either style of clamp. FCT-1 is an inexpensive tool which can be used with 1/4" and 3/8" clamps. Requires a 1/2" wrench to perform band tightening and does not have a built-in cutter. FCT-2 has a built-in torquing handle and a built-in cutter.

- FCT-1 is \$15.61
- FCT-2 is \$126.22
